WITHOUT QUESTION The best and cheapest lot of first-class bulbs ever offered for a grand show of winter flowers for the house, or spring flowering in the garden.

POSITIVELY NO CHANGE OR ALTERATION ALLOWED IN THE COLLECTION.

UR remarkable offer last year of 500 Bulbs for \$3.00 was accepted by thousands of our customers, and in fact the demand was so large that we were compelled to substitute for many of the odd varieties, which we offered in such large quantities. We have carefully revised the entire list, reducing the number of those offered last season in unnecessarily large quantities and increasing the most popular and easy grown kinds, as well as some of the more expensive varieties of Lilies, Hyacinths, etc. Our Bargain, Collection for this year therefore comprises 333 CHOICEST BULBS FOR **ONLY \$2.95.** This is a *genuine bargain* for every buyer of winter Blooming Plants and Bulbs, and while we have made ample arrangements for a fair supply, send in your order early. Flower lovers who are acquainted with these varieties will recognize the fact that it is a genuine Bargain Bulb Collection, and we feel safe in saying that every collection sent out by us will prove a source of recreation and joy to thousands. Do not wait until your other flowers or plants are out of the way

but order now and have them ready. Safe arrival is guaranteed. This is in no sense a collection of untried varieties but embraces 333 Bulbs which will thrive in any house or garden. There is not an inferior sort in the whole collection. The price is net \$2.95, either at our Chicago or New York Store. If ordered by express purchaser pays charges. Every purchaser will receive our "GARDENING ILLUSTRATED" to be issued in January next. It "Tells the Whole Story of the Farm, Garden and Lawn" with all the advances shown at the World's Fair of 1893.

OUR COLORED COVER PAGE OFFERS.

The World's Fair Bulb Collection, a grand bargain offer to every customer, has been

especially arranged for the many thousands of World's Fair Visitors who having seen our displays of Tulips and other Flowers at the Fair have registered for our catalogue, and now receive it for the first time. For such we have arranged these special bargain collections, consisting of a few really good bulbs of easiest culture, sure to bloom with ordinary care. We are expecting and hope that everyone who is interested in these beautiful winter flowers will return in our envelopes (enclosed in this book) an order for one or more of these collections or for other Plants or Flowers here offered.

OUR FRONT PAGE COLLECTION: The best three Hyacinths for pot culture, two Scillas and one true buble yellow Oxalis, all for 40c., prepaid.

OUR WORLD'S FAIR WINDOW GARDEN BULB COLLECTION: 1 Gem Calla, 1 Giant English Snowdrop, an Thol Tulip, single scarlet, 1 Double Duc Van Thol Tulip. Red and Yellow, 1 Narcissus, Van Sion, 1 Narcissus, rable, 2 Giant Mammoth Crocus, and 2 Freesias. Ten fine Bulbs, price only 60c., prepaid.

'HIS Columbian Autumn Edition of "Gardening Illustrated" will be found a most complete list of easy growing Winter and Spring Flowering Bulbs and Plants. Our very large Wholesale Trade with Florists and Seedsmen in this class of Plants enables us to import at the very lowest cost, and these very moderate prices will be found all through the book. With our Special Bargain Collections and cheap mixtures of Crocus, Tulips, Hyacinths. Daffodils, etc., there is no reason why the most economical lover of plants cannot enjoy a few of these flowers.

Those who have visited our Seed, Plant and Cut-Flower Exhibits in the Horticultural Building and about the East Fountain will remember our displays of all seasonable flowers, Tulips, Pansies, Sweet Peas, Gladiolus, etc., and realize the truth of our claims that we can supply the best of everything, conveniently, quickly and cheaply from the two greatest American cities, Chicago and New York.

Autumn Bulbs and Plants extend the season of flowers through the dreary months of frost and snow, and maintain the blossoms and foliage of June amid the frosts of December. This miniature summer, made perennial by these winter flowering bulbs, is, from its very contrast one of the most attractive possibilities among all the pleasures of gardening. Nature has made very kindly special provision for this in storing away in these bulbous, dormant plants, flowers which in many cases are brilliant in coloring and sweet in perfume. And it is a very pleasant part of this that few even of the hardiest summer flowers give such bountiful and satisfactory results for the attention bestowed.

It will continue to be, as it has been, the aim of VAUGHAN'S SEED STORE to offer nothing in any of the editions of our GARDENING ILLUSTRATED that is without merit. The grand field of horticulture ("that Art which doth mend nature") contains too many high class plants to justify us in offering inferior or worthless novelties in extravagant terms to catch the money of the credulous or unwary to the ultimate injury of all good business.

BUSINESS RULES—PLEASE READ CAREFULLY.

How to Order. -We do not send Seeds. Plants or Bulbs C. O. D. Write your Name, Post Office, State and your Express Office plainly with black ink, on every order and every time you write to us. Give plain shipping directions; where none are given we use our best judgment, but it must be at your expense and risk. Prepaid. -Prices given in this catalogue usually include prepayment by mail on Bulbs and Plants (not tools, unless so marked) except where offered "by express" then it is meant that the purchaser is to pay charges. Remember, sometimes in the busiest season others may have orders ahead of you, which must be filled in rotation. Order early.

Cost of Remitting. -Our customers may select additional bulbs free, with every order of \$1.00 or more, to the amount of the cost of the money order, registered letter, or other remittance.

Very Important. -You can greatly aid us by using Order Sheet, as follows:

1. Place the quantity wanted before each article.

2. Use one line for each kind ordered.

3. As nearly as possible make out your list in the same order in which the goods are catalogued, beginning at the front.

Prompt Delivery. -If goods are not received in a reasonable time, send exact copy of order, date sent, stating amount of remittance, kind of remittance (draft or money order) and the same will be investigated. How to Order. - We do not send Seeds. Plants or Bulbs C. O. D. Write your

AGAPANTHUS. READY IN NOVEMBER.

(THE GREAT AFRICAN LILY.)

These are noble ornaments on lawns in pots or tubs, on terraces or piazzas, or for the decoration of the greenhouse. Foliage luxuriant and graceful, flowers borne in clusters of 20 to 30, and measure fully a foot across. The flower stalks frequently attain a height of three feet-the flowers opening in succession for a long period during summer and autumn. The Agapanthus is the easiest kind of a plant to grow. It will do well in any kind of soil, any position, any receptacle; will bear quite a cool room and has no insects of any kind; but insists upon a steady growth and being left undisturbed.

Umbellatus. Old favorite; flowers bright blue, each, 25c.; 3 for 65c., postpaid.

Umbellatus Fol. Arg. Var. (The Variegated African Lily) with silver margined foliage. Each, 60c.; 3 for \$1.50, postpaid.

ANEMONES.

All who have seen the Anemone in bloom will

admit that it is a most beautiful flower. Double and single are both desirable—the single the most brilliant. Planted from October to November they will bloom in the early spring months. Protect by covering with litter during winter. A few pots of these car-

ried over winter in a cool room and brought into heat in April, will make a beautiful window display. They succeed best if left in the same pot for several seasons without disturbing the roots.

Double Rosy, each, 4c.; 3 for 10c., postpaid.

- Scarlet, each, 4c.; 3 for 10c., postpaid.
- Anemones Mixed .- Containing the finest Chrysanthemum flowered sorts in mixture in many rich and beautiful colors. Each, 3c.; 4 for 10c.; doz., 30c.; 100, \$2.25, postpaid.

■ SINGLE ANEMONES.

Flowers of immense size (measuring 4 inches in diameter), saucer-shaped. In sheltered situations the bulbs will flower continuously throughout the winter, spring and early summer, making them invaluable for cutting and decorative purposes. Cardinal's Hat, Light scarlet, fine for cut

flowers, each, 4c.; 3 for 10c., postpaid.

The Bride, Pure white, an extra fine variety, each, 5c.; 6 for 25c.

Blue, feathery foliage, each, 4c.; 3 for 10c. Solis. Red. each, 4c.: 3 for 10c., postpaid. Single Anemones Mixed, embracing many new shades in coloring, 3 for 5c.; doz., 15c.; 100, \$1.25.

⑤→**⑤** ANEMONE FULGENS. **②**→**⑥**

The Scarlet Wind Flower is the most brilliant and beautiful of all winter and spring flowering Anemones. Its dazzling scarlet flowers are exceedingly abundant, and can be used to advantage in cut flower work. Single Fulgens, each, 4c.; 3 for 10c., postpaid. | Double Fulgens, each, 6c.; 3 for 15c., postpaid.

NEAPOLITANUM ALLIUM

The marble like bulbs look as if carved out of creamy gray stone. They should be potted, treated exactly the same as Hyacinths and will begin to grow The flower stems grow about 18 to 20 inches high in clusters of delicate pure white, and will keep perfect several weeks. Plant six bulbs in a five inch pot. Not hardy north of Washington. Each, 3c.; 4 for 10c.; doz., 25c.; 100, \$3.00, postpaid.

ANOMATHECA CRUENTA.

Their dwarf growth, brilliant and profuse bloom continued for a long period, render them very popular for either pot culture in the house, or blooming out of doors. Flowers bright, rosy carmine, blotched with crimson. Not hardy; requires the protection of cold frame in northern climate. Each, 8c.; 3 for 20c.; doz., 70c., postpaid.

ANTHOLYZA. (==

The flowers which are very stately and showy are borne in spikes like those of Gladiolus, from July to September. Excellent for bedding out, or for grouping in shrubberies. Not hardy in the northern states. Should be planted in the spring and dug up in the fall. Each, 6c.; 3 for 15c., postpaid.

APIOS TUBEROSA.

Also called Tuberous-Rooted Wistaria, as it greatly resembles that well known vine. It blooms most profusely, bearing lovely clusters of rich, deep purple flowers; possessing a delicious violet fragrance. We offer the tubers at a low price, so that they can be used liberally. Is perfectly hardy Each, 8c.; 3 for 20c.

🚞 ARISAEMA TRIPHYLLA. 🕮

Jack-in-the-Pulpit.—Purple variety. The spathe canopy is bronze green with white markings when it first opens, but gradually deepens till it is striped with black, purple, brown, green, yellow and white, and glistens in the sun like a dragon-fly's wing. Gradually the spathe falls away and exposes the spadix covered with scarlet berries that hang on almost all winter. Plant in partial shade and give plenty of water and soon you will have a large clump. Each, 20c.

ARUM.

Dracunculus .- A curious and ornamental pot plant; flowers a foot long, purple, red and blue black, stem beautifully marbled with leaves resembling a small palm. It is as rapid a grower as the Calla and requires the same treatment. Each, 20c.; 3 for 50c., postpaid.

Italienm .- Flowers greenish white with beautiful coral red seeds, foliage delicately veined white. Each, 15c.; 3 for 40c., postpaid.

ALLIUM AUREUM. (MOLY OR GOLDEN ALLIUM.)

Perfectly hardy, and one of our most showy border plants, bearing large umbels of golden yellow flowers in June; height, one foot. Each, 5c.; doz., 35c.

->: + AMARYLLIS. ->:

(See also Crinums and Zephyranthes.)

These are probably one of the most popular bulbous plants, producing large drooping, bell-shaped, lily-like flowers, varying in color from richest crimson to purest white, striped with crimson and scarlet, They are very successfully grown in an ordinary parlor, the chief knack in their culture being to give them a season of activity followed by one of rest. In potting, only the thicker base of the bulb should be covered, allowing two-thirds to project above the surface of the soil. When new leaves appear increase the supply of water. Give warmth and plenty of light, and, if needed, some liquid manure. When the production of leaves ceases, and some of the foliage turns yellow the growth has been completed, and the plant desires rest. Withold water almost wholly. Put the pot away from the light and aim to keep the bulb; dormant until another period of growth begins.

Belladonna Major. - (BELLADONNA LILY.)-This is an autumn blooming variety of great beauty and fragrance; color delicate white, flushed and tipped with rose. The spikes grow from two to three feet high, and bear from six to ten flowers. Each, 25c., postpaid.

Equestris .- (BARBADOES LILY.)-Broad petal of a soft salmon scarlet color, marked in the center with white bars, which radiate from the white throat. Each, 40c., postpaid.

Formosissima. - (JACOBÆAN LILY.) - Beautiful trumpetshaped flowers of a rich, dark scarlet; free-blooming; forces well and can be grown in water like Hyacinths. Each, 20c.; 3 for 50c., postpaid.

Johnsonii .- A very popular sort, and one of the best of the Amaryllis for general culture; large flowers of fine crimson color, striped with white. Each, 50c.; 3 for \$1.40, postpaid.

One each of the four kinds for \$1.25, postpaid.

BABIANAS.

A pretty little plant bearing showy spikes of flowers which are often alternately white and blue-sometimes the three upper petals are blue and the lower white, others are striped blotched and bordered blue, deep crimson, magenta, rose, violet, purple, lavender to mauve; many of them being sweet scented. The varieties offered in our Special Mixture this season rival the Gladiolus and are far more beautiful and interesting. They are not hardy North of Washington. Best grown as a house plant, five or six bulbs in a 5-inch pot. A light sandy soil with good drainage suits them best.

Special Mixture, each, 5c.; doz., 5oc., postpaid.

BEGONIAS, TUBEROUS-ROOTED.

For a bedding plant outdoors in summer or pot culture in the house, the Tuberous-Rooted Begonia cannot fail to give satisfaction even to the most inexperienced, as they are easy to cultivate, possibly more so than the Geranium. The flowers outrival those of Geraniums in brilliancy, are much larger, often exceeding six inches in diameter, and are borne in the greatest profusion. They come in all shades from the most brilliant scarlet and crimson through pink, salmon and white to yellow, both single and double. We offer fine bulbs in separate colors selected to produce only the largest flowers of the richest and brightest shades.

Single Mixed, each, 12c.; 6 for 50c.; doz., 85c., postpaid. Double Mixed, each, 20c.; 6 for 90c.; doz., \$1.75.

Single, Separate Colors, white, scarlet, pink and vellow each, 15c.; I of each color, 5oc.; 3 of each color, \$1.25.

Double, Separate Colors, white, scarlet, pink and yellow, each, 25c.; 1 of each color, 85c.; 3 of each color, \$2,25.

AMARYLLIS JOHNSONII.

-:- BESSERA ELEGANS. CORAL DROPS. -:-

A native of the mountains of Southern Mexico, with long, narrow grass-like leaves and slender flower stalks, one foot high, carrying a loose umbel of flowers, each a scarlet bell marked with white lines, stamens with bright blue anthers. An exceedingly free-flowering little plant. Each, 10c.; 3 for 20c.; doz., 75c., postpaid.

BULBOCODIUM VERNUM.

A very early Spring-flowering bulb, two weeks ahead of Crocus; flowers rosy-violet in color, desirable for edgings, as they bloom close to the ground. Hardy. Can be potted for winter-bloom in the house.

Each, 6c.; 3 for 15c.; doz., 5oc., postpaid.

BULBS AND BULBOUS PLANTS.

A very instructive little book of 32 pages, giving plain, concise and practical hints for the culture of the various beautiful bulbous plants, valuable both for the florist and amateur. Price, by mail, 25 cents.

BOWKER'S PLANT FOOD. —

This is a most useful fertilizer for all kinds of plants raised in pots. It produces a rapid and vigorous growth and an abundance of flowers. It is odorless and takes the place of liquid manure. Drives all insects out of the soil.

Price per small package, containing sufficient plant food for 20 plants for 3 months, 15c.; 3 for 40c.; if by mail add 5c. per package

Price per large package, containing sufficient plant food for one year, 25c.; 3 for 65c.; if by mail add 15c. per package.

Each package contains full directions.

BARGAIN BULB COLLECTION .- 333 Choicest Bulbs for \$2.95. See second page of cover.

BABIANAS.

→ BRODIAEAS. (===

Coccinea .- (Crimson Satin Flowers) also called the "Fire Cracker Plant," Flowers produced in drooping umbels on stems 11/2 to 2 feet high, color deep crimson red, the lip being a vivid green; of easiest growth, succeeding in any soil. Each, 10c.; 3 for 25c., doz., \$1.00, postpaid.

Grandiflora,-One of the finest of the "Brodiæas" having dwarf flower stems, terminated by an umbel of numerous large flowers, varying from light purple to rose color, bloom several weeks. Each 5c.; doz., 5oc., postpaid.

Stellaris .- Similar to the above but dwarf, with several flower stalks, forming a star-like cluster of rich purple flowers with white centers.

Each, 4c., 3 for 10c.; doz., 4oc., postpaid.

Volubilis or Twining Hyacinth.-A rare and curious bulbous plant suitable for winter blooming and for outdoor culture. It throws up a flower-stem which twines like a vine and produces at the end of the same large umbels of pretty rose-colored flowers

Each, 15c.; 3 for 40c.; doz., \$1.50, postpaid.

Mixed Brodiæas, each, 5c.; doz., 5oc., postpaid-

It is also a fine pot bulb for winter-blooming. Fine cutting as they remain perfect a long time, each, 5c.; 6 for 25c.; doz., 40c., postpaid.

COLCHICUM AUTUMNALE.

(AUTUMN CROCUS.)

A very interesting plant which sends up its lavender flowers in the fall and its foliage in the spring. Its determination to bloom is such that even if deprived of soil, water and light, it will flower by the middle of September. It has been called the "Air Lily" on this account. Each, 7c.; doz., 6oc., postpaid.

OUR FRONT PAGE COLLECTION. — THE THREE BEST HYACINTHS FOR POT CULTURE, TWO SCILLAS AND ONE TRUE DOUBLE YELLOW OXALIS, ALL FOR 40 CENTS, POSTPAID.

The color is of the richest velvety purplish black. Each, 35c. Yellow Calla.-Its habit of growth and general appearance is similar to the well known White Calla, excepting that the flowers are of a clear light yellow. Very scarce, Growing plants, each, 50c, VAUGHAN'S CALLA COLLECTION.—One each of above six kinds (see cover, third page)

for \$1.85; three collections for \$5.00, postpaid.

Calla Aethiopica Nana .- This is preferred by florists and many others to the old tall growing variety. It is in every way its superior as a pot plant, and its flowers being smaller make it admirably adapted for use in floral design work. Grows about 18 inches in height, is very free blooming, and of symetrical habit. This is a different variety from "Little Gem" described above. Growing plants, each, 25c.

DEPTH AT WHICH BULBS SHOULD BE PLANTED.

Many of our customers are frequently puzzled to know the proper depth and distance apart at which bulbs should be planted. The accompanying diagram, reproduced from "Popular Gardening," conveys the information much more clearly and briefly than we could describe it. The chart will bear careful study. Out door planting should be done early in the fall to secure healthy plants, vigorous foliage and beautiful flowers.

CHIONODOXA LUCILLÆ. (GLORY OF THE SNOW.)

HIS lovely flower is quite hardy, having been originally discovered in the mountains of Asia Minor. Flowers are sometimes 11/2-inch in diameter, borne on spikes and are of a lovely bright blue color, shading from the tips of the petals to a pure white center. Very easy of culture and succeed well in pots. Each, 6c.; 4 for 20c.; doz., 60c., postpaid.

CRINUM KIRKII.

This magnificent bulb, which often attains the size of 6 to 8 inches, produces flowers of the greatest beauty. Usually two flower stalks of dark purplish color are sent up at the same time, each bearing a large umbel composed of a dozen or more enormous lily-like flowers of the greatest beauty and fragrance. The petals are broad and pure white, with a deep reddish purple stripe through the center. A plant which always creates a sensation when it blooms, which it does with the greatest freedom.

Price, Monster Bulbs, about 13 inches in circumference, each, \$2.00. First Size Bulbs, each, \$1.00. Second size bulbs, each, 50c., postpaid.

CRINUM ORNATUM.

This showy Amaryllis bears upon a central flower stalk six to ten fragrant pink and white blossoms. With a little extra care it can be made to bloom twice a year. Fine, strong bulbs, each, \$1.25,

CRINUM AMERICANUM.

Large spikes of beautiful white sweetscented flowers. Large bulbs, each, 35c.; 3 for 90c.; doz., \$3.50, postpaid.

CYCLOBOTHRA.

(GOLDEN STAR TULIP.)

A beautiful summer blooming bulb from Mexico, bearing bright yellow bellshaped flowers, prettily spotted with black -remaining a long time in full beautythey can be satisfactorily grown in pots, or the bulbs can be kept dormant, and be planted out in the spring. Each, 10c.; doz., \$1.00, postpaid.

CLIVIA. (IMANTOPHYLLUM.)

The reigning Paris fashion in decorative house plants. Magnificent, Amaryllis-like evergreen plants of easiest culture, blooming twice a year. The flowers are in large clusters, each flower two inches in diameter, light red shaded with orange, lasting a long time in perfection. They thrive in the ordinary temperature of the sitting room. Even when not in bloom the long, dark green sword-like leaves are most pleasing in a plant collection, but when in bloom each spike is a bouquet in itself. Heretofore high prices have placed it beyond the reach of most plant growers, but through the purchase of a large lot in Belgium by our agent, who found them in great favor in the London and Paris flower stores, we can now offer them at moderate prices.

CLIVIA MINIATA.

First size, each, \$1 25. Extra strong blooming plants. Second size, each, 75c. Strong bloom-

ing plants.

Third size, each, 50c. Bloom the second season.

CINNAMON VINE. NOVEMBER.

(DIOSCOREA BATATAS.)

A lovely climber, taking its name from the peculiar fragrance of its delicate white flowers. The leaves are heartshaped, bright glossy green; growth is very rapid, reaching about 8 feet in height; quite hardy. Roots, each, 10c.; 3 for 25c.; doz., \$1.00, postpaid.

CYPELLA HERBERTI.

A very beautiful and little known species of summer-flowering bulbs, suitable also for house culture. The flowers are bright orange-yellow, with purple stripes and spots appearing all summer. A very elegant and free blooming plant. Height, I foot. Each, 15c.; 3 for 40c.; \$0.2., \$1.25, postpaid.

CRINUM KIRKII

CRINUM CAPENSE ROSEA.

While much praise has been bestowed on some southern Crinums sold at \$1.00 to \$3.00 each here is one which is just as beautiful, and which would be perfectly hardy in any but the most northern localities, with a slight protection. But it is really too beautiful a flower to plant in the garden, and can be best enjoyed indoors. Its flowers are borne on stems 2 to 3 feet high; they are very large, funnel-shaped, white tinged with red, and produced in umbels of 10 to 20 flowers, frequently blooming several times during the season. When planted in the garden they require deep planting, very rich soil with an abundance of water in summer, a warm position, and will increase rapidly in numbers. Do not fail to try this. Price for large blooming size bulbs, 30 and 50 cents each, \$3.00 per doz., postpaid.

Tall, lily-like in growth, surmounted with a crown of bell-shaped flowers in varying shades of yellow, orange and red. The bulbs should be planted about five inches deep in rich soil and a sunny situation, and should be in the ground by October 15th.

Maximus, yellow, very large, postpaid..... Crown upon Crown, double flower, postpaid..... Mixed Varieties, postpaid.......doz., \$1.50 15

CROWN IMPERIALS.

COOPERIA. (Evening Star Flower.)

This is a member of the Amaryllis family, excellent pot plants for winter flowering, and force well, or the bulbs can be kept dry like Gladiolus and be planted out in the garden in the spring as it is one of the earliest of all bulbs to grow, and sure to bloom freely from May to

September. Stems 10 to 15 inches high; very fragrant with the odor of primroses.

DRUMMONDII. Pure white flower, half an inch across, expanding during the evening. Each, 10c.; doz., \$1.00 postpaid.

PEDUNCULATA. Flowers at first pure white, changing to reddish purple, remain open about two days. Each, 10c.; doz., \$1.00, postpaid

General Note.-The bulbs offered in this catalogue are ready at different seasons, for instance: Dutch bulbs, such as Tulips, Hyacinths, Crocus, etc., by September 15th; Spiraeas and Lily of the Valley, in November, etc., etc. We shall forward bulbs as soon as ready, holding the balance of the order until the remaining bulbs arrive, unless we are instructed otherwise:

NAMED LARGE FLOWERING CROCUS

CROCUS. The hardiest and earliest of all spring flowers, sending up its bright little flowers before the snow has fairly disappeared. They should be planted about 2½ inches deep and covered slightly during severe weather. Planted in clusters or borders, they are quite showy and increase from year to year. They will flower easily in the house in moss, water or earth with the same treatment as Hyacinths.

Crocus bulbs should be planted as soon as received. Try them on the lawn where they bloom before the

MAMMOTH YELLOW CROCUS.

Florists in the bulb trade all know that bulbs supplied in the yellow mixtures of Crocus are only third or fourth class. We have imported especially for our retail trade a Mammoth Yellow Crocus of Holland, the bulbs of which are nearly as large as good sized Tulips, and will, with usual cultivation, give enormous flowers of pure golden yellow. Doz., 20c.; 100, \$1.25.

CYCLAMEN.

This well known free blossoming plant is only adapted for house culture in in our climate, but for winter blooming it has few superiors. It grows readily and remains a long time in flower, its varied and marbled foliage contrasting finely with its beautiful and fragrant flowers, the rich blooms of which are largely used by bouquet makers to give variety. Plant in September or October in a 5 inch pot, using rich, light soil, and water sparingly until it begins vigorous growth, after that it may be treated like other house plants. The pretty variegated foliage and bright flowers, together with its long blooming season, render it a favorite whereever known. Large bulbs in mixed colors only of the improved giant-flowered type, each, 20c.; 3 for 55c.; 6 for \$1.00, postpaid.

Plants with buds from 4 inch pots, each, 50c., by mail, postpaid; by express, each, 35c,; 3 for \$1.00.

DIELYTRA SPECTABILIS. (BLEEDING HEART.)

We import large heavy roots only of this grand garden flower. Nothing is more graceful than its long drooping sprays of heart-shaped pink and white flowers; it is perfectly hardy, increasing in size and strength of bloom from year to year if left undisturbed in the garden. Strong roots, ready in November, by express, each, 20c.; doz., \$2.00. If by mail add 5c. each for postage.

ERANTHIS HYEMALIS. (WINTER ACONITE.)

One of the earliest and most hardy of spring flowers, throwing up its pretty yellow blossoms long before snow disappears, and continuing in bloom for several weeks. Each, 5c.; doz., 30c.; 100, \$1.50, postpaid.

ERYTHRONIUM. (DOG'S TOOTH VIOLET.)

Pretty Cyclamen-like flowers of lovely shades; foliage spotted with brown; hardy, desirable for outdoor planting. White, purple or rose. Each, 10c.; doz., 75c. Mixed, doz., 5oc., postpaid.

GIANT FLOWERED CYCLAMEN.

OUR SPRING CATALOGUE OF 1894 will be the finest we have ever issued, with most beautiful lithographed cover and plates. All who send us an order from this catalogue will receive a copy of it free as soon as issued—about January 15th.

FREESIAS

This lovely flower is a recent introduction from the Cape of Good Hope. The bulbs seem small in comparison with the foliage and flower spikes; should be planted four in a four-inch pot, and covered with a light mulching of moss until growth begins; water freely and give plenty of sunlight and warmth. The flowers are carried on long, slender stems, which bend at a right angle near the end, and from the horizontal parts the flowers are thrown up; when cut and placed in vases of water they will keep perfect for two weeks. They are always sure to succeed and will bloom in any situation. They are invaluable for bouquets, as they are deliciously fragrant. The bulbs increase each year, so that customers who buy a few dozen may soon have many hundred.

Refracta Alba, pure white, with small yellow blotch on lower petal, each, 5c.; 3 for 10c.; 12 for 30c.; 100, \$1.75, pestpaid.

Scarlet Freesia. (Anomatheca Cruenta.) Resembles Freesias in bulb, foliage and habit; flowers bright scarlet with deep blotches, An admirable pot plant companion to the Freesias; it does not flower quite so early.

FRITILLARIA MELEAGRIS.

Curiously shaded and spotted bell-shaped flowers, borne in clusters like a Crown Imperial. Quite hardy outside, or may be flowered in the house. Very pretty, planted in groups; plants about one foot in height. Each, 6c.; doz., 6oc., postpaid.

GLOXINIAS.

One of the choicest bulbs for not culture, flowers trumpet shaped, with the most beautiful tints and markings. shaded violet, rose, blue or crimson. Plant in a light soil of leaf-mold, sand and good loam: keep in a moist atmosphere at a temperature of 60 to 80°, and give an occasional watering with liquid manure during the growing period. Give plenty of light, but do not expose to the direct rays of the sun. Dry gradually after blooming, and store during the season of rest in cocoanut fibre or moss. Fine bulbs (ready by the end of October), each, 25c.; 3 for 6oc., postpaid.

Gladiolus, Winter Blooming.

Cultivate the same as Hyacinths; they are of very dwarf habit and three bulbs can be grown in a six inch pot. The spikes of bloom are good and the colors striking and beautiful.

COLVILLII, "The Bride."

It is a very light, graceful variety having pure white blossoms, and is one of the most popular cut-flowers in the London and Paris markets. All who forced it for the first time last year, have greatly increased their orders for the coming

* LILY OF THE VALLEY. READY NOV. 15TH. *

No garden is complete without a few clumps of these favorite flowers which are so universally known as to need no description. Their glossy foliage and spikes of graceful white bells, and their delicious perfume are equally desirable for bouquets, pot culture in the house, or borders in the garden.

For planting outdoors the clumps should be chosen; for indoor culture the selected crown or pips. Plant them as soon as possible, root them well in a cool place like the Hyacinth, and keep them always well saturated with water.

Good Flowering Pips, for winter blooming; 3 for 15c.; per doz., 35c., postpaid; by express, at buyer's expense, per 100, \$2.00. Strong Clumps, heavy, each. 40c.; doz., \$4.00 by express; if by mail add 10c. each.

Pink Lily of the Valley. Color rose pink when grown in the open ground; if grown under glass they come white. Strong Pips, each, ioc.; 3 for 25c.; doz, 75c., postpaid. By express at purchaser's expense, \$5.00 per hundred.

Variegated Lily of the Valley. The foliage of this variety is beautifully edged with yellow, which gives the dark green leaves a very striking appearance. The flowers are white. Pips, each, 15c.; 3 for 40c.; doz., \$1.50, postpaid.

LEMON LILY. (HEMEROCALLIS FLAVA.)

Imported English roots of this delightful sweet flower. It is a charming hardy border perennial, with large, broad grass-like foliage, and heads of large lily-like flowers of a soft yellow and very fragrant. The flowers open singly, and are very useful for cutting. It forces very rapidly and can be had in bloom in February. Strong plants for forcing, ready end of October.

Price, each, 25c.; 3 for 6oc.; doz., \$2.50, postpaid.

WHITE WATER LILY. (NYMPHÆA ODORATA.)

The beautiful native Water Lily of North America; large, pure white, and very fragrant; perfectly hardy, and requiring no cultivation. Plant in a sluggish stream, or in a tub, 18 inches to 2 feet deep; cover the root with about two inches of rich loam, and fill with water; store the tub in a cellar over winter to prevent freezing. Ready end of October.

Strong roots, postpaid, each, 35c.; not postpaid, each, 25c; 3 for 60c.; doz., \$2.25.

WATER HYACINTH. (PONTEDERIA,)

This rare and beautiful plant differs from any other water plant in unique foliage. Orchid-like flowers about 21/2 inches in diameter; color, delicate lilac, shaded with rose with an orange spot on the upper petal. It can be grown in the open air in summer and in the window in winter. The plants will thrive in any vessel of water placed in the sun. Each, 20c.; 3 for 50c., postpaid.

-->+ IRIS. +-

A group of plants of surprising beauty. They bloom in succession in about the order here given. Though neglected for some years past, they are having a great revival of popularity like that of the Narcissus and have been greatly improved recently.

Spanish Iris .- Well adapted for pot culture; 5 or 6 bulbs should be planted in a 5 inch pot. We offer pure white, white, blue shaded, light, bright and deep yellow. In separate colors each, 6c.; 3 for 15c. Mixed Varieties, each, 5c.; 3 for 10c.; doz., 25c.; 100, \$1.75, postpaid.

IRIS KÆMPFERI, OR JAPAN IRIS.

The flowers of these Japan Iris grow to an enormous size, averaging from 6 to 8 inches in diameter, while the richness of coloring surpasses description, varying like watered silk in the sunlight. The variety of colors is very great, ranging from the purest snowwhite to pale lilac and lavender, from the softest pink to the richest crimson; two or more colors being usually represented in one flower. They are perfectly hardy and increase rapidly in size. Plant them in the fall in moist soil and they will bloom for 5 to 7 weeks the following June and July. Ready in Nov. Double Mixed Varieties, each, 30c, postpaid; by express at pur-

new in this country, and unlike anything else in cultivation. Their great oddity, novelty and beauty make them a most desirable plant for winter blooming in pots, requiring the same treatment as Hyacinths. The colors are a curious blending of yellow, scarlet and shades of olive green, the stems and leaves being spotted with black and brown. Mixed Colors, each, 15c.; 3 for 4oc.; doz., \$1.50, postpaid.

> **≯MADEIRA VINE.**₩ A rapid-growing, graceful vine, with smooth,

waxy, dark green leaves, and dainty racemes of tiny fragrant white flowers; will grow in almost any position. 3 for 15c.; doz., 5oc., postpaid. (Bulbs ready in November.)

WILD CUCUMBER.

(ECHINOCYSTIS LOBATA,)-This is the quickest growing climber in our list. Grows wild, self-sown, in many parts of the West. It will grow thirty feet in one season, has dense, graceful foliage which is thickly dotted over with pretty white fragrant flowers. These in turn are followed by an abundance of small ornamental and prickly seed pods. The seeds being extremely hard and slow to germinate, should be sown in the fall where they are intended to stay, and will come up quickly the following spring. Once planted this vine seeds itself and comes up every year. Seed (ready in October). pkt., 10c.; ounce, 30c., postpaid.

The rates for single bulbs and dozen lots include postage unless otherwise noted.

Lily bulbs will be ready by the middle of October.

AURATUM. THE GOLD-BANDED

This is the highest type of flowering bulbous plants. The most beautiful and fragrant of all our list. The flowers are of immense size, being fully twice as large as those of the Speciosum Lily shown in cut below, which represents the flowers in their natural size. There is wonderful beauty in the growth of this gorgeous flower; first the dry, scaly bulb, then the sturdy stalk pushing through the earth, next the dark green leaves and flower buds and finally the dazzling white and gold blossom. This noble lily when first introduced into this country, but a score of years since, sold at five dollars each, now can be had for a trifle. The new bulbs are brought from Japan for us each year and only such will give best results. They are shipped to us wrapped in a ball of clay and arrive plump and sound, every one ready to bloom.

The three Lilies offered on this page are now ready for delivery.

LILIUM CANDIDUM.

The old-fashioned pure white Garden Lily, also known as Easter Lily and Annunciation Lily. One of the hardiest. Flowers snow-white, with heavy yellow stamens and sweetest fragrance. Bears from five to twenty blossoms. This is the most decided variety we have in expressing its preference for a planting time. It must be planted in the early autumn to succeed well, as it makes its leaf growth at once after planting, and prepares itself for early flowering. The bulbs are sometimes kept in cold storage for spring sales, but never do quite so well. We have a very large sale of this bulb to florists for forcing for Easter trade, and have imported this season eighty thousand bulbs. The prices are lower than for many years, and bulbs very fine. Customers will do well to plant a bed of twenty-five or more for a permanent bed or border.

Price, picked imported bulbs, each, 12c.; doz., \$1.25, postpaid. By express, 25 for \$1.50; 50 for \$2.75; 100 for \$5.00.

Mammoth Bulbs, extra heavy. Each, 25c.; 3 LILIUM LONGIFLORUM.

> A variety bearing in clusters beautiful snow-white trumpet-shaped flowers of rare fragrance; almost exactly like Lilium Harrisii in shape, but blooms later, extending the season of that beautiful kind.

Each, 15c.; doz., \$1.50, postpaid.

SPECIAL OFFER: One each extra size bulb, Harrisii and Mammoth Candidum for 40c.; 3 each for \$1.00, postpaid.

LILIUM HARRISII.

For blooming at Christmas it is best to order bulbs as soon as you receive this catalogue. This mammoth white Trumpet Lily, with flowers four to five inches long, is the best of all Lilies for winter forc. ing and flowering, because its grand, trumpet shaped flowers, which give forth a delicious perfume, are wonderfully beautiful and expressive. As a pot plant it is tall and stately; the spike is thickly studded with bloom, which are lovely as cut flowers, and keep a long time in water.

BERMUDA EASTER LILY-BULB.

BY J. C. VAUGHAN. planting of bulbs should be deep, and about five to ten inches apart. After the foliage dies down in the summer, the bulbs should be lifted and replanted in September or October in a different place in the garden; in this way they will thrive and increase from year to year. Every one should have at least a few of these charming plants.

For house culture plant several bulbs together in a pot, and keep in a cool room; give plenty of light and water and they will bloom in February to April, The Polyanthus varieties are earliest and best adapted to house culture, but all will do well in pots if not kept too warm and forced too rapidly.

- COARDEN NARCISSUS, OR DAFFODILSO

The prices for single bulbs and dozens include postage, large lots by express. We furnish six of any one variety at the dozen rate.

These are best adapted for out-door culture and are very hardy. They should be planted in September or early in October, if possible, five to ten inches apart, and four to five inches deep, and protected by a slight covering of dry leaves or straw before severe frosts.

POLYANTHUS PARCISSUS.

HESE varieties bear their flowers in clusters on a single stem and are specially adapted for house culture, not hardy in the open ground in our climate, as nearly all sorts are natives of the south. The colors vary from white to orange with contrasting cups, and their peculiar and penetrating fragrance is not their least attraction. Culture is very easy, much like that of the Tulip or Hyacinth, and they bloom somewhat earlier.

NEW LARGE FLOWERING

PAPER WHITE NARCISSUS.

This is a new strain recently cultivated, producing much larger flowers, and blooming somewhat earlier than the old variety. It is a desirable sort for house culture, a vigorous grower, and may be brought into bloom in a bowl of water in the same manner as the ever popular Chinese or Scarlet Lily. The Paper White Narcissus flowers are fully as fragrant and produced in greater abundance than those of the Chinese Lily, but the spikes are not so numerous. The latter rost about four times as much as the Paper White; for the same expenditure of money more and better bloom can be procured by purchasing the Narcissus. Each, 5c.; 5 for 15c.; doz., 45c., postpaid.

SURPLUS BULBS. We make up very generous assortments at 300... \$1.00 and \$2.00 each. See page 16 for particulars.

NARCISSUS, PAPER WHITE LARGE FLOWERING.

CHINESE SACRED

We Import these direct from China in large quantities.

HIS Chinese Sacred Lily or Sacred Lily of Japan, which is the Chinese Emblem of Good Luck, is really a Narcissus of the Polyanthus type but unlike the varieties known of this group, the Chinese Sacred Lily produces very large bulbs, measuring from 12 to 18 inches in circumference, which throw up from 5 to 10 flower spikes, bearing clusters of large perfect, waxy white blossoms with yellow center of a most delicious fragrance. They grow well in pots in a light and sandy soil, but the most successful way of cultivating is as the Chinese do -in water. It is the most easily grown and satisfactory bulb for house or window culture that we know of; flowers freely and can be planted at any time from October until March. It seldom fails, even with the most careless cultivators and, take all in all, the bulb is like the nation from which it comes, a remarkable one. Price, each, 20c.; 6 for \$1.00, by mail, postpaid.

==NERINE.=

These beautiful Lilies for winter flowering are as popular and useful as any of the Amaryllis family and one of the quickest and most certain to bloom after potting. They bloom from September until November, and therefore should be ordered as early as possible.

Magnifica. (JAPANESE PINK SPIDER LILV.) A most desirable sort, A clump of bulbs produces a large number of spikes of the most delicate flowers, varying in their colors from pinkish salmon to pink, vermillion and scartet, the petals being beautifully undulated, and by artificial light sparkling like jewels; an ornament, indeed, for the finest parlor. Largest bulbs of blooming size, each, 35c; 3 for 75c; doz., \$2.50, postpaid.

each, 35c.; 3 for 75c.; doz., \$2.50, postpaid.

Fothergilli Major. Nothing in the way of color can surpass the splendor of this flower, its texture being so extremely delicate. Color, vivid scarlet. The most floriferous of the group. Each, 75c., postpaid.

Sarniensis. (The Guernsey Lily.) As pot plants nothing can be more beautiful, and if a few bulbs of Oxalis be planted around the bulb, a thing of beauty will be had forever! Flowers, flesh to salmon. They are graceful in form as well as fine in coloring, and very attractive. Each, 25c.; 3 for 60c., postpaid.

"SPIDER LILY," OR PANCRATIUM CARIBBÆUM.

PANCRATIUM CARIBBÆUM.

(WHITE SPIDER LILY.)

A grand lily from South America, bearing a profusion of waxy-like flowers, delightfully fragrant and lasting a long time in bloom. This splendid plant, if planted early in spring, will bloom early in summer. If planted in May or June will bloom early in the fall. The beautiful wax flowers have a peculiar formation, are very attractive and exceedingly fragrant-will fill the whole room with the most delightful odor. Large bulbs, 20c. each; second size bulbs, 15c. each; 3 for 4oc. postpaid.

PANCRATIUM MARITIMUM.

(THE SEA DAFFODIL.)

Bears large panicles of pure white fragrant Amaryllis-like flowers, yellowish inside and of delightful odor. Planted a foot in the ground, in light sandy soil, they will prove hardy. One of the finest of Pancratiums. If whole stems are cut the flowers will continue opening in succession for two weeks. 20c. each, 3 for 50c., postpaid.

RESURRECTION PLANT.

A curious plant of the South, which Orchid-like, seems to draw its substance from the air, and if taken up and allowed to dry, becomes dormant, but possesses the remarkable power of becoming fresh and green in a single night after being given water. Each, 10c.; 3 for 25c.; doz , \$1.00.

PEACOCK FLOWER.

(MOREA PAVONIA,)

Flowers Iris-like, pure white with a beautiful porcelain-blue stain; the spot is margined with dark-purple teeth, and is of a fine, deep violet at the base. Each, 15c.; 3 for 50c.; doz., \$1,50, postpaid.

MOREA PAVONIA.

RANUNCULUS.

Brilliant in color and of great variety of beautiful forms, the Ranunculus is unexcelled for borders and masses of color in a mild climate, but they will not endure a northern winter; may be grown in a cool room in the house or planted out early in spring. Plant 5 or 6 in a 5 inch pot.

Soil should be a rich loam or clay, mixed with a little sand and well manured. Plant in a cool, damp location, claws downward, about five inches apart and three inches deep. They must be well covered in winter. Prices below include postage.

DOUBLE FRENCH, very large and double; colors brilliant golden yellow, scarlet, white and rose. Bloom in June. Each, 3c.; 3 for 10c.; doz., 25c.; 100, \$1.50, postpaid.

DOUBLE TURBAN, hardier than the French, bright and showy. Each, 3c.; doz.,

30c.; per 100, \$2.00, postpaid

DOUBLE PERSIAN, a distinct class, brilliant in color and flowering in great profusion. Each, 3c.; per doz., 3oc.; per 100, \$2.00, postpaid.

SPECIAL OFFER-Four each of above 3 kinds for 25c.

SCILLA SIBERICA.

The Siberian Scilla, Squil, has flowers of a lovely ultramarine-blue color, borne in graceful spikes; in the house it blooms early like the Roman Hyacinths and forms a beautiful contrast with them. In the open ground they are quite hardy and are specially fine planted in small beds or with Snowdrops. Each, 3c.; 4 for 10c.; doz., 20c.; 100, \$1.50, postpaid.

SCILLAS, OR WOOD HYACINTHS.

The fine Spanish varieties (S. CAMPANULATA) of the Wood Hyacinth which we offer, have erect flower spikes one to two feet high. They are very effective in flower and shrubbery borders. They also make charming pot plants, and may be forced into bloom by March. The white varieties are greatly in demand to cut for table bouquets and vases. Prices include postage.

Lovely Blue, each, 5c.; 3 for 10c.; doz. 35c. Pearly White, each, 5c.; 3 for 10c.; doz. 35c. Soft Rose, each, 5c.; 3 for 10c.; doz., 35c. Special Offer:

Three each of above three kinds for 25c..

SCILLA CLUSII.

Produces an enormous head of dark blue starshaped flowers, sometimes two feet in circumference, and as the flowers open gradually, their season of bloom lasts for a long time. Being perfectly hardy, it will prove as valuable an addition to the garden as it will for pot culture. It is a noble plant indeed, which should be grown extensively, as it surely will when it becomes fully known.

Each, 15c.; 3 for 40c., doz., \$1.25, postpaid.

DOUBLE RANUNCULUS.

SURPLUS - RULBS

AT VERY LOW PRICES

Delivery in November and December.

When placing our orders with the growers of such bulbs as we import, it is almost an impossibility to estimate definitely the probable quantities we will dispose of, hence, before the close of the season we find our stocks of some varieties exhausted, usually however, we have a surplus of almost everything. To quickly dispose of such after our busy season is over, we will make this surplus stock into generous collections, worth at regular rates two or three times the prices now charged. These assortments will not be sent out until November and after, but orders will be received now, booked, and filled in rotation as received.

Surplus Bulb Collection A, for indoor culture. Price, 50c., postpaid.

Surplus Bulb Collection B, for outdoor planting. Price, 50c., postpaid.

Surplus Bulb Collection C, for out-door and indoor planting combined. This collection contains such a liberal quantity that it is sent by freight or express at purchaser's expense. Price, \$2.00.

We call particular attention to the giant strain of Snowdrops, especially adapted to pot culture in the house. See prices above.

TROPÆOLUM TRICOLOR.

This is a tuberous rooted winter blooming Nasturtium for pot culture, which is one of the most charming window vines one can possess during winter. Pot bulbs in good soil and treat them like other winter bulbs. They are somewhat slow to start, but will after a while throw up little needle-like shoots, which should be supported on strings or trellises. After a short time they will develop beautiful tiny foliage, which will soon be followed by hundreds of brilliant flowers, scarlet, tipped with black and yellow-which keep perfect a long time. Each, 30c., by mail, postpaid.

TUBEROSES, READY IN NOVEMBER.

The growing plant is fond of light and heat, and should be given the sunniest place in the conservatory or greenhouse. They may be planted at intervals of a week or so to

give succession of bloom. If planted outside, it should not be before April 1st, as they are not hardy with us. The Pearl being dwarf, is much preferable for pot culture.

Pearl.-This now well-known sort produces larger and very double flowers on shorter stems than the common sort, growing from 21/2 to 3 feet in height. Each, 6c.; 3 for 15c.; doz., 60c., postpaid; by express, doz., 30c.; 100, \$2.00.

≡TIGRIDIAS.===

The Tigridia, or Tiger Flower, as it is often called, reminds one much of the Tulip in the brilliancy of its gold and scarlet coloring. Its culture is similar to that of the Gladiolus, and for summer flowering in the garden, the bulbs should be planted out in the spring. It is one of the easiest plants in the world to cultivate and is sure to flower abundantly in any warm situation. It is a pretty plant for pot culture and the novelty in this class, Grandiflora Alba has attracted much attention from amateurs recently.

The three above, postpaid, one each, for 30 cts.

PARROT TULIPS.

The most beautiful and interesting class of Tulips, which should be in every garden. The flowers are very large and perfect in shape, the petals are corrugated and toothed, while the color is the most striking combination of crimson and golden yellow, streaked and edged with green, resembling the plumage of a parrot whence these Tulips derive their name. A bed of these makes a gorgeous display, paying hundred-fold for any trouble that may be bestowed upon them. One peculiarity of these bulbs is that a certain proportion remain every year without blooming; on this account they may be planted slightly closer together than ordinary

EW EVER- CANNA HE grand flowers of these New French Hybrids

have shown each year very decided improvement. The new ones of 1892 have maintained and increased this advance until these plants are first in public attention.

Our Canna display at the World's Fair is no doubt attracting more attention than any other single class of plants. We are exhibiting 30 new kinds which have never been offered for sale before, and shall be prepared for our catalogue of 1894 with a grand list of these popular plants, which will include those first shown this year as well as all the good older kinds.

We especially call the attention of our customers who grow house

and window plants to the adaptability of the dwarfer kinds to this purpose, the large flowers, bright colors, constant flowering, as well as the beautiful and healthy foliage, make the Canna an almost ideal house plant. We offer a set especially selected for this purpose from our very large collection.

Star of '91.-3 ft. Good foliage, and has a persistent habit of throwing up fresh sprouts from the base. Every sprout produces a flower spike. The color is glowing orange scarlet, not so clear a vermilion as Madame Crozy, faintly banded with golden yellow. Each, 25 cents.

George W. Childs .- 31/2 ft. Florets are nearest like those of Madame Crozy, but with more yellow on the throat and at back of flower, but only about two-thirds the size of the latter; the flower spikes are 5 inches in diameter, and stand well above the foliage of the plants. Each, 25 cents.

The King Cactus, (PHYLLOCACTUS ACERMANNI.)-An old species, but one of the most profuse bloomers flowers satiny scarlet, with petals acutely pointed and wavy along the edges. Each, 25 cents; large plants, 50 cents. Old Man's Head Cactus.

(PILOCEREUS SENILIS.)-It is covered with very long silky white hairs, often drooping below the rim of the pot, giving it the appearance of the venerable white head of an aged person. Each, 75c.; large, \$1.00.

EVER-NEW BLOOMING CANNAS.

Madame Crozy .- 31/2 ft. The immense flower heads of the deepest vermilion, gold bordered, are double the diameter of a Gladiolus spike, and follow each other so rapidly that the plant is always in bloom. Petals very wide and broadly rounded, foliage green. Each, 25 cents.

General Baron Berge.-31/2 ft. Plant strong, foliage deep green, freebloomer; brilliant scarlet, large round flower. Each, 20 cents.

The Garden.-31/2 ft. A strong grower, foliage green, lanceolate; long, comet flower spike; flowers large, broad

and well rounded; color vermilion. Each, 20 cents.

New Seedling Yellow .- One of our own raising; a very clear bright vellow.

This goes free with every order for the 5 above, making a set of 6 very distinct kinds for winter use for \$1.00.

Florence Vaughan.

OUR LATEST NOVELTY.

This is undoubtedly one of Mr. Crozy's most beautiful and distinct introductions. The flowers of this splendid sort are of the MOST PERFECT FORM, the petals are even BROADER THAN THOSE OF MADAME CROZY and more rounded at the ends, which latter characteristic represents the best type sought for in the latest hybridizations, are well opened and of THE MOST BRILLIANT GOLDEN YELLOW, DOTTED WITH BRIGHTEST

SCARLET, they are the largest of all Canna flowers and are produced in constant succession truly ever-blooming; for the stock of this (13 plants) we paid the highest price ever known for a Canna, \$400. Each, October and November delivery,\$ 1.25.

PAEONIAS.

Ready in October. Prices include postage. New Varieties. Grand, old fashioned favorites.

New Pæony, Lady Leonora Bramwell.

This first rate novelty is a very full double variety with large guard petals whilst the rest of the flower is a collection of petals placed closely together, something in the form of a very large, well-shaped Hollyhock. The size is above average of Pæony flowers. The color is a fine rose pink with a silvery brightness about it. This is the most floriferous of all and the strongest and most prolific grower. Seen in a mass the effect is ravishing, as the plants are simply covered with richly colored bloom. First Class Certificate was awarded by the Royal Horticultural Society in recognition of its being a novelty possessing merit above other older varieties. Extra. Each, 60c.; 3 for \$1.50.

CHINENSIS. Red or Pink.—Perfectly

SMALL FRUITS.

POT GROWN STRAWBERRY PLANTS

The plants we offer are grown in small pots, and as shown in the illustration have a mass of roots. For shipping they are turned out of the pots, retaining the ball of earth around their roots, and wrapped in paper (unless ordered by mail, in which case the ball is broken and soil washed away from the roots). We do not recommend any other manner of shipping than by express. These pot grown plants when so forwarded are almost certain to succeed and will produce a moderate crop next season.

The extremely dry summer has prevented the rooting of layer plants in the field hence, we have none to offer this season. We have a fair supply of fine pot grown plants of the varieties listed below:

SMITH'S SEEDLING, NEW.

Originated with a successful small fruit grower near Ft. Atkinson, Wis., a district devoted to the cultivation of berries. This successful cultivation of it, to the exclusion of better known kinds, gave the seedling strong recommendation. Strong grower, large foliage, blossoms perfect. Fruit very large, firm, round, dark rich color, late in ripening, the most productive perfect blossom variety we know of. Price, fine pot plants, doz., \$1.50; per 50 by express, \$3.00.

VIEW IN LINCOLN PARK, CHICAGO

OUR CHICAGO PARKS LAWN SEED has been sold by

us for many years and has given most general satisfaction. We have an immense trade in the best quality of this at our State Street Store, retailing in small lots over one thousand pounds per day during the busiest season in the spring.

Chicago Parks Mixture. Finest Quality, 1b., 25c.; 5 lbs., \$1.00; bu., (14 lbs.) \$2.75; 3 bu., \$7.50. Good Quality, 1b., 20c.; bu., \$2.40; 3 bu., \$6.75. If to go by mail add 8 cents per 1b. for postage.

COLUMBIAN LAWN GRASS MIXTURE.

The following letter explains itself, and shows the estimation in which our Seed for Lawns is held by the highest authorities. Our friends and customers are invited to inspect the grass plots next summer in the locations mentioned. We offer our Columbian Mixture of Lawn and Grass Seed, as supplied to the World's Columbian Exposition, and which we especially recommend for shaded situations and for comparatively light soils.

Mr. J. C. Vaughan, Chicago and New York:

Dear Sir—The Landscape Department of the World's Columbian Exposition has used during the past season over 5,000 pounds of grassed purchased from you for lawns, and with the best results.

This work can be seen in many sections of the grounds, especially, in the following: Around the Mines. Electricity and Service Buildings on the Wooded Island, on the banks of the South Lagoon, north and west of the Government Building and west of the Women's Building.

Yours truly, R. ULRICH,

Superintendent Landscape Department,

World's Columbian Exposition.

Columbian Lawn Mixture. Lb., 25c.; 5 lbs., \$1.00; bushel, (14lbs.) \$2.75; if to go by mail add 8c. per 1b. Write for special prices on lots of 5 bushels and over.

LAWN FERTILIZER.

Our Lawn Fertilizer (Bone and Phosphates) is a most desirable article for supplying the soil with requisite food for a luxuriant growth of grass, and avoid all the objectionable features of animal manure, as weed seeds, etc. Our customers who have had it once will have no other. It can be applied either in the Spring, Summer or Fall, at the rate of one pound to 16 square feet. Price, 5 lbs., 30c.; 10 lbs., 50c.; 25 lbs., \$1.00; 50 lbs., \$1.75; 100 lbs., \$3.00,

Some previous cultivation, or at least a thorough turning over should be given. A clayey loam is the best soil foundation for a good lawn. Let the surface be graded to the level wanted in all parts and well rolled-a light rak-

to the level wanted in all parts and well rolled—a light rakshould be done as early in spring as the ground can be worked, provided the ground has not already been prepared in the fall. The very best time, the ground being in order, is about April 1st. Three to four bushels per acre should be sown; the latter amount is best, for the young plants are but small, anyway, and if thick, cover the ground better and make a smoother and more even turf. Never sow oats or other grains—you can't assist a weak plant by crowding it with a strong one. Our seed, which we believe to be as pure as can be found anywhere, is of the best varieties, best suited for even and permanent; growth; they are carefully cleaned and as free as it is possible to make them from weeds.

Our Lawn Grass Seed sown in the Autumn, will produce a fine luxuriant Lawn EARLY the following season.

PURE BONE MEAL. Analysis: Ammonia, 3 to 4 per cent.; Bone Phosphate, 45 to 55 per cent. Every bag is guaranteed pure Bone. It is made from the bone gathered from the plains and farms without being steamed or baked. Price, per bag of 200 lbs., \$4.50; 5 bags or over. \$4.00 Harrow or drill in, using 200 to 300 lbs. per acre at time of seeding. In small lots by express, not prepaid, 5 lbs., 30c.; 10 lbs., 50c.; 25 lbs., \$1.00; 50 lbs., \$1.65; 100 lbs., \$2.50.

EGYPTIAN OR PERENNIAL ONIONS.

This variety never forms a large bulb, their value lies wholly in their special adaptability for producing green onions for spring or fall use, particularly the former; soon attaining a marketable size, are immensely productive and perfectly hardy. Being perennial, they will, if left in the ground, continue growing for an indefinite time, continuing to increase both from the bottom and from sets produced on top of the stalk. The old set within the ground closely resembles the wasted bulb of other onions after having seeded. The set produces from one to three fine shoots the first season after planting, but if left undisturbed new sets are again produced from the top the same season, and by the following spring the original onion will have formed a clump of sprouts numbering from 10 to 20. In their culture the sets should be planted in the fall, as soon as they have reached maturity, not waiting until dry, as they thus attain the benefit of prolonged growth, and attain a larger size. Plant in drills to a depth of 3 to 4 inches, to bleach the ensuing growth to some length. Price for fail delivery, qt.. 30c., postpaid. By express at purchaser's expense, peck, 60c.; bush., \$1.75. Write for prices on larger lots.

>WELSH ONIONS OR CIBOULE. ■ •

Two years ago we secured a small stock of these Onions from a German gardener in the North, where he had kept them for years all through the winter with but little protection. They are excellent for "Green Onions" in the spring, being extremely early. They do not form a bulb, but only a small enlargement at the base of each shoot that will break up into 5 or 6 stems, which when transplanted will multiply the same way and a big stock can soon be worked up. They are also propagated by seed which is sown early in the spring, like that of other onions. Our stock of both seeds and sets is limited, and we would advise ordering early. Our own trials at Western Springs have proved it to be perfetly hardy without any protection. Sets, doz., 12c.; per 100, 50c., postpaid. Seed, per pkt., 10c.

* GARDENING. **

EDITED BY WILLIAM FALCONER.

Published twice a month by the Gardening Co., Chicago, at \$1.00 a year, tells amateurs in gardening what they want to know, and not what somebody else wants to tell them. It teaches the plain ungarnished truth, and in language that the least informed about gardening matters can understand.

Subscription, \$1.00 for 1 year, 50c. for 6 months, may be sent to us at Chicago or New York. All interested in gardening should read it.

This paper will be sent free for six months on any order for bulbs and plants amounting to \$3.00 selected from this catalogue, (collections and special offers excepted,) provided it is asked for on order.

FLOWER BULBS And How to Grow Them.

The entire field of flowers produced from bulbs is covered in this work, giving as it does among other things, the proper period at which they should be procured and planted, the most suitable soil, location and position of beds, protection in winter, etc., etc. Copious illustrations serve to better convey correct impressions as to the shape and size of the flowers. It treats of bulbs both for indoor and outdoor culture; for summer and winter blooming. Price, 25 cents.
